Tsubaki shaft manufacturing and assembly

Serving you in Western Canada

Sprockets and chains, stock and made-to-order capability

Fast, reliable service and expertise

Specialized, long-lasting product

Tsubaki delivers

Expertise

We are the world's largest sprocket manufacturer, and we have extensive experience in Canadian operations from coast to coast. This gives us deep expertise in understanding how our products are used—expertise you can depend on.

Quality

Our manufacturing standards go beyond ASME standards—you get products that last longer, even under harsh conditions.

Performance

We are the only manufacturer of precision and engineered class chains AND sprockets. You get the right combination of chain and sprocket—with a longer life for each.

Oilfield

Sprockets

Roller Chain

At Tsubaki, we understand oilfield grade. High productivity, high speeds, high shock loads and high cyclic loading put great demands on sprockets and roller chain. Our experts have developed Tsubaki's Energy Series to keep your operation running smoothly.

Here in Western Canada, we offer an extensive local inventory of: **Multistrand sprockets**—for maximum performance, many with our innovative “Smart Tooth” visible wear indicators that eliminate the guesswork from your preventative maintenance.

Energy Series chain—API certified, with unique features such as Energy Series pins, ballized plate holes, shot-peened bushings and rollers, and Z cotters. Our Energy Series chain comes with a **free of charge cut-to-length service**.

For reliability and quality, remember that Tsubaki is the only supplier that can manufacture both roller chain and sprockets, period.

Sprockets

Roller Chain

Welded Steel Chain

Attachment Chain

You have deadlines to meet, so whether you're having an untimed breakdown or a scheduled shutdown, you need fast, dependable answers.

Tsubaki Edmonton looks forward to bringing you our in-house wealth of experience, along with our dedication to mitigating day-to-day industry challenges. In addition to the market's best chains and sprockets, stocked and manufactured or customized locally, we are your partner in reducing downtime, lowering maintenance costs and increasing productivity.
