About Ballantine

Ballantine, headquartered in Anoka, Minnesota, has been manufacturing trencher replacement parts since 1959. Our philosophy of supplying our customers with quality products at affordable prices, has positioned us as an internationally recognized leader in the industry. Ballantine has locations in Minnesota, California and Georgia to fulfill all of our customers' needs.

We are constantly striving to meet the ever-changing needs of our customers. We bring innovative technology together with the finest quality metals and expert craftsmanship to produce superior ground-engaging wear parts. Replacement parts are available for all types of construction equipment.

With product lines such as trencher replacement parts, scraper parts, horizontal directional drill (HDD) parts, carbide teeth, drive and roller chain, rockwheel segments, feller buncher teeth and CBI blocks, we have become the complete source for all your ground-engaging wear part needs.

Our strength lies in our commitment to quality (ISO 9001 registered) and service, which translates into savings and satisfaction for you.
