

Tsubaki Advantage Success Stories

Application No.	4461
Industry	AUTOMOTIVE-Tier One
Application Name	Dip Tank Cranes
Issue	Premature cable wear and failure due to broken conductors in existing festoon cable system. Hanging cables became entangled on other obstructions.
Tsubaki Solution	Tsubaki Kabelschlepp supplied fully populated carriers that ride in guidance channels mounted to overhead cranes. Eliminated depot space required by festoon system which limits the footprint required by the cable management system. Guidance channel protects cable carriers and keeps cables elevated and out of harm's way.
Cost Savings	\$25,000.00
Product Type	Kabelschlepp-Kabelschlepp
