

Tsubaki Advantage Success Stories

Application No.	4575
Industry	AUTOMOTIVE-Assembly Plant
Application Name	Weld cell robot
Issue	Temporary quick fixes on robot cables exceeded manufacturer's tolerance, became pinched and or entangled and caused sensor failure. Customer was repairing cables approximately every 6 weeks which took the robot out of operation.
Tsubaki Solution	Working with a preferred installer and supervising implementation we provided the customer with R0100 Robotrax for cable management. Once optimization was completed, no more lost cables occurred over a 7-year period. One time Install cost of \$3600.
Cost Savings	\$22,637.00, over 7year period
Product Type	Kabelschlepp-Kabelschlepp
