

Tsubaki Advantage Success Stories

Application No.	8493
Industry	CONSTRUCTION-Cement
Application Name	Finish Mill
Issue	The mill had been purchasing from the OEM for many years. The OEM product had a long Lead time and high price.
Tsubaki Solution	The mill was in a bind and Tsubaki was able to manufacture locally providing the best lead time as well as price. Through showing successes at other plants through Tsubaki Advantage we were able to get their confidence. We supplied a hardened alloy traction rim that was a direct changeout. The mill was very happy with the quality of Tsubaki and the support and now are looking to standardize.
Cost Savings	15,000
Product Type	Sprocket / Traction Rim
