

Tsubaki Advantage Success Story

Application No.:	3858
Industry:	Food – Red Meat
Application Name:	Kill Floor – Takeaway Conveyor
Issue:	Impact loading and lack of lubrication
Tsubaki Solution:	Tsubaki DS6272 is a Delrin Series Chain made from zinc electroplated sidebars, pins, & rollers; and hardened stainless steel bushings. Additionally, it utilizes a Delrin roller insert to eliminate or reduce the need for lubrication in clean and/or sterile environments. Excellent for wet and corrosive environments especially those found in meat processing. The improved specs allow our chain to outperform competitor products in the most challenging applications
Cost Saving:	\$875.39
Item No.	DS6272K21L (Drawing 13730)
Product Type:	Engineered Class Chain-EC Roller Conveyor Chain
