

Tsubaki Advantage Success Stories

Application No.	7419
Industry	FOOD-Bakery
Application Name	Cup Cake Pan Washer
Issue	OEM chain had elongated past its working limit. They wanted something that would stand up to the washdown but also be an upgrade. The oem crudely fabricated their own SKK0 attachments that go up and down on a single link.
Tsubaki Solution	Tsubaki of Canada and US Tsubaki have AS or 600 series stainless steel readily available. We were able to change out the custom SKK0 attachments for a stock SK1 attachment and put up on the pin link and down on the roller link so it would grab the pan and engage on the guide rail. This saved them time and money as well as providing them a great quality, precision roller attachment chain.
Cost Savings	1,621.84
Product Type	Conveyor Chain-Attachment Chain
