

Tsubaki Advantage Success Stories

Application No.	3830
Industry	FORESTRY-Sawmill
Application Name	LOG CHEMICAL SKIN TRIMMER
Issue	Chemical level was rusting and jamming articulation between pin and roller. Pin was inflating because of rust and causing chain to jump over sprocket tooth. Very inaccessible application.
Tsubaki Solution	Providing BASF special coating helps to prevent rusting. We also went to make a proper selection, found that chain was under sizes and selected the right chain for this critical application. Tsubaki chain was almost 40% higher pricewise but lasted 3 times longer.
Cost Savings	19,786.64
Product Type	Engineered Class Chain-EC Drive Chain
