

## Tsubaki Advantage Success Story

<b>Application No.:</b>	<a href="#">7700</a>
<b>Industry:</b>	FORESTRY-Forestry
<b>Application Name:</b>	PHP Chipper Infeed
<b>Issue:</b>	Webster WH132XHD3SL20L was installed on the chipper infeed conveyor in July 2014. Chain was elongating to the point where it wasn't meshing with the sprockets properly. It was removed in March 2016.
<b>Tsubaki Solution:</b>	Tsubaki installed 5 strands of WH132XHDIBR3SL20L in March 2016. It included IBR feature which is Induction-hardened Barrels and Rivets. This feature gives the chain a higher hardness and better resistance to wear. Changing to Tsubaki IBR resulted in an increase of life from 24 months to 41
<b>Cost Saving:</b>	12,912.31
<b>Product Type:</b>	Welded Steel Chain
